Property Description

Cushman & Wakefield has been retained on an exclusive basis to arrange for the sale of 228 Thompson, a turn-key 25' wide, 5 story mixed-use building located in the heart of Manhattan's Greenwich Village. Positioned just south of Washington Square Park, adjacent to NYU's main campus and two blocks north of SOHO, the building is situated in arguably the most desirable enclave in Manhattan and will appeal to a world market.

The building has recently undergone a full gut renovation and is comprised of a ground floor retail space with four (4) large apartments above. All of the apartments contain luxury finishes inclusive of individual HVAC systems, stainless steel appliances and Bosch washers and dryers. Features of the building include tall ceiling heights, ample front and rear light and a curated common roof deck overlooking the surrounding city scape. Additional features of the apartments include private outdoor spaces for the bottom two units and a large mechanized sky light above the living room in the top floor unit.

The retail space is currently leased through 2032 for \$18,000 per month (approx. \$107 PSF) with 3% annual increases and a 20% share of all RE Tax increases (17/18 Base Year).

The apartments are currently renting for an average of \$10,750 per month and are consistently in high demand due to a rare combination of finish and size that transcends the quality of any available in the surrounding market.

228 Thompson Street is an excellent opportunity for investors to acquire a well positioned, low maintenance, mixed-use building with significant in-place cash flow and a world class location. The building will be sold on an as-is, where-is basis.

Asking Price: \$13,250,000
